

Competition Supplement 2008 – 5

Stars TaG Category, (previously known as SPEC Racer)

The following Regulations concern the Stars TaG Category for Competitors Eligibility. All other 2008 Snap-on Stars of Karting Competition Regulations and Supplements govern the Drivers' responsibilities for competition compliance.

2.7 Eligible Drivers

2.7.2 – Stars TaG Category

Stars TaG Category is a Senior Level Category, (Drivers' minimum age 15). Stars of Karting Officials may, at its discretion, advance up to three Junior Category Drivers nearing the age requirement into Stars TaG only, who have participated for a minimum of three competition years in Stars of Karting Competition, on the basis of skill, development, physical stature/weight, or other qualification criteria. This selection will be made by Stars of Karting Officials only and will be final.

Within the schedule of any one 2008 Snap-on Stars of Karting Event, (including the 2008 Grand Finale), Stars TaG Drivers may not participate in any other Category. However, it is permissible for Drivers to participate in another Category within the 2008 Competition Year, just not within the schedule of any one, (the same), Event. For example, a Driver may participate in ICC at the first Event of the 2008 Competition Year, but may wish to change to Stars TaG Category for the balance of the year, starting with their second Event of the 2008 Competition Year. The Driver in this case may go back to ICC for any Event, but may not participate in Stars TaG and ICC together within the same Event. For purposes of this document, and Event is defined within the 2008 Snap-on Stars of Karting Competition Regulations, item 2.16.1 – Event Schedule Format.

Classification, (Race Points), will be awarded to Stars TaG Drivers, as outlined in the 2008 Competition Regulations 2.25 – Classification, and Regional, (East and West), Champions will be determined prior to the 2008 Snap-on Stars of Karting Grand Finale, also as outlined in the Competition Regulation 2.25 – Classification.
